ABOUT ME

Highly motivated and enthusiastic Junior Software Development Engineer with more than 2 years of software engineering experience in the development of entire web apps and back-end services. I try to follow development trends and often learn new languages and technologies

In this year, in addition to development, I have led team of 5 people (1 Java developer, 1 IOS developer, 2 Backend developers and 1 QA).

In my free time I play computer games, improve my knowledge in English, and relax with Music

"Not complacent when praised n not narcissism when criticized"

CAREER GOALS

I want to experience, learn a lot of knowledge, you know, because knowledge has no limit. So want to explore the world, new environment and challenge myself.
